

S F Johnson Consulting Class Outline

Drywall & Drywall Specialties

Date

**Drywall &
Drywall
Specialties**

In this three-day class, we will show the techniques used determine proper take off totals, pricing and estimate presentation for every possible gypsum/drywall scope of work. We show the student how to master the following:

1. Gypsum Wallboard – Commercial grade work
2. Gypsum nailed screwed to wood
3. Gypsum clipped to metal
4. Wallboard Finishing
5. Drywall Specialties
6. Furring
7. Lathing
8. Resilient Channels
9. Ceiling Suspension Systems
10. Creating a Proper Cost Estimate

In addition to paying the class enrollment fee, the student will be required to purchase additional study materials from our student store.
