

# S F Johnson Consulting Class Outline

## Professional Roofing Estimating

Date	
<b>Professional Roofing Estimating</b>	<p>In this on-line 4- week estimating class, we will review the three steps of mastering estimating. This class covers roofing estimating. We show the student and discuss the details related to:</p> <ol style="list-style-type: none"> <li>1. Completing an accurate roofing take off (linear measurements, heights of parapet walls and square foot totals)</li> <li>2. The best way to have quick accurate pricing for continuous bidding</li> <li>3. Determining accurate manhours based on the exact scope of work</li> <li>4. Professionally formatting a cost estimate</li> <li>5. Reviewing the construction documents vs. the Specifications</li> <li>6. Handling errors on plans</li> </ol> <p><b>This is a live 4-week class where the above referenced topics are covered with an additional five weeks to complete five progressively difficult cost estimates. The student receives a variety of quizzes based on the area of study and must pass a final exam to successfully complete this course. All students who successfully complete any area of study with receive our company certification.</b></p> <p>In addition to paying the class enrollment fee, the student will be required to purchase additional study materials from our student store.</p>
